About Me

Hi! I'm Experienced Full Stack Web Developer dedicated to building high-impact websites that drive business growth. I deliver complete website development solutions, including advanced functionalities, API integration, and robust security features. My expertise spans front-end (HTML, CSS, JavaScript, TypeScript) and back-end (PHP, Java, Node.js, Ruby) development, with a focus on creating fully responsive and user-friendly experiences. I am passionate about transforming ideas into reality.

Experience

(2021 - 2022)

FRONT-END DEVELOPEMNT

For portfolio

- Designed and built many portfolio websites for myself and, bullt frontend websites for friends and some clients

(2022 - Present)
